

## CTO ON DEMAND

### Benefits To You

- We do the heavy lifting of your day to day IT operations, while you operate and manage your business with peace of mind.
- We will act and perform as your IT Dept - without the hassle of your company hiring a single IT personnel
- No full time employee, benefits, bonus or 401K

### What we do:

- A full array of hardware, software, multi cloud and network choices based on performance and cost
- Help Reduce total cost of ownership (TCO) and improve your company's ROI
- Help secure vendor's "wholesale" rates by leveraging our market intelligence, strong relationship and technology know-how.
- Global Support with travel flexibilities around the world.
- Design and Build scalable solutions
- Help select and negotiate with technology vendors
- Help build hybrid and multi cloud environments in private or commercial datacenters
- Full Installation and configuration of hardware and software
- Intensive testing to ensure a smooth operation that is turnkey and scalable
- Build documentation and checklist for better performance
- Proactively monitor and support with highest SLA
- Always On 24X7 around the globe

### Hardware expertise

- Servers: Dell, Supermicro
- Networking: Cisco, Juniper, Dell, Brocade, Arista
- Web balancers: F5, A10, brocade ADX
- Security appliances: A10 WAF, F5 WAF, Palo Alto, SonicWall, Sophos

### Our team

- Group of IT professionals with 10+ years of experience
- Our staff are carefully handpicked and selected based on their knowledge and expertise to support our clients
- CTO OnDemand with an IT team at your service no matter how big or small the project is.
- Consistently learn and test new technologies for performance, scalability, vulnerability and cost before recommending to our clients
- Provide proactive maintenance and monitoring without any interruption of the Production environment
- Always strive for the best by keeping our client's interest and goals in mind before anything else.
